

### Home Learning – Year 1 – Then Vs. Now

	1 point	2 points	3 points	4 points	5 points	6 points
	Know	Understand	Apply	Analyse	Create	Evaluate
<b>Verbal</b> I enjoy reading, writing and speaking	Identify the difference between trees and plants	Name four different types of trees.	Write about a tree that you have found out about.	Visit a local garden centre. What is different or the same about plants in the garden centre compared to plants and trees at school, or at home?	Create your own song to memorise different types of trees.	Present facts that you have found out about to your family and friends.
<b>Maths/Logic</b> I enjoy working numbers and science	Practice your number bonds to 20 (5 + 15 = 20, 16 + 4 = 20, 7 + 3 = 20)	Make a poster showing all the ways you can make 20.	Use addition facts to practise adding items up in the shop.	Choose a nature area (a bush/ patch in the garden/ park) Take 4 photos of the area over a month. How has the area changed?	Create a 2-D city shape picture of a toy. Can you name the different shapes and their properties?	Build a balance scale: <a href="https://handsonaswegrow.com/balance-scale">https://handsonaswegrow.com/balance-scale</a> Put a toy on the one side. How many Lego blocks will make it balance? Find a second toy- which is heavier? By how much? Repeat with a third.
<b>Visual</b> I enjoy pictures, drawing and visualising	Draw a picture of a tree and the changes that take place throughout the year.	Draw a picture of what you might wear if you are a nurse.	Imagine that a forest (or other type of landscape) 'grew' in your bedroom / kitchen / classroom. Draw a picture showing what this might look like.	Create your own plant care poster.	Design your own toy!	Design a poster about a toy from now compared to a toy in the past.
<b>Kinaesthetic</b> I enjoy hands on activities	Design and make a stethoscope . Use junk material, cardboard, lego etc.		Florence Nightingale was known for making hospitals cleaner and safer. Have a go at cleaning an area in your home.	Put glitter or flour on your hands and practise washing them. How long does it take you to wash your hands properly?	Build a real or fantasy hospital- using Lego, blocks or 3-D junk material from home.	Make your own hygiene booklet – think about basic hygienic things we should all be doing every day.
<b>ICT</b> I enjoy using computers to help me learn	With an adult research – when was the first toy created?	With an adult research – what did toys used to be made out of?	<a href="https://www.tinytap.com/activities/g3czv/play/match-and-sort-toys">https://www.tinytap.com/activities/g3czv/play/match-and-sort-toys</a> Play this game!	With an adult research what toys are made out of now. Why has this changed over time?	Search the web with an adult to find images of different toys across the world.	Make a booklet of facts about toys.
<b>Social</b> I enjoy working with others	Identify 3 different flowers in your garden, on your way to school or at the park.	Talk to your family (parent/ grandparents) What toys was their favourite toys when they were your age?	Discuss why flowers come out at different times of year.	With a friend discuss what would be exciting about being a nurse.	Get together with everyone from your household and create a plan for if someone is sick.	Be a tourist for the day in Maidenhead. How many places can you spot that help poorly people? Discuss the use of these places with your adult.
