Top Tips

Practise little and often. Can you practise these KIRFs while walking to school or during a car journey?

You don't need to practise them all at once: have a fact of the day.

Make a poster – We use Numicon at school. Your child could make a poster showing the different ways of making 6.

Play games – You can play number bond pairs online at www.conkermaths.com and then see how many questions you can answer in just one minute.
